CHECK LIST OF COMMUNIST CHINESE PERIODICALS

This Check List reflects the titles of Communist Chinese periodicals held in the CIA Library Acquisitions Branch. The titles are transliterated according to the Wade-Giles system, and are arranged alphabetically. The numbers preceding the titles correspond to the shelf location of these publications in the Acquisitions Branch. An asterisk preceding the title indicates that it is being received currently; otherwise the month and year of the latest issue received is indicated in parentheses after the title. An English translation is given below the transliterated title in each case.

The CIA Library has two purposes in mind in the preparation of this series of Check Lists. The first is in connection with the Library's publications selection and retirement programs. The CIA Library wants to keep its basic collections in tune with current needs; to do this, the collections must be reviewed regularly. Material determined as no longer needed, except for historical purposes, will be sent to the Library of Congress. The Check List is intended for use by CIA research offices in guiding the Library in its publications selection and retirement programs.

The second purpose is to serve as an information medium: to let research personnel know what Communist Chinese periodicals are available as of 1 June 1959 in the Acquisitions Branch, CIA Library. For any information as to the contents of this Check List, please call CIA Library, extension 4021.
